

Accu-Track™ ADVANTAGE

Your Total Plant - Smart Control

INTEGRATES ALL OF YOUR PLANT'S SYSTEMS

DRUM / DRYER

Fuel and Material Monitoring

- Burner Fuel Usage Rate and Totals
- Individual AC On/Off Times for each mix design - reduces waste!

BAGHOUSE

Regulate Dust Precisely

- Baghouse Pulse Control
- High Temperature Alarm and Shutdown
- Baghouse Screw Zero Speed Alarm

PUMP SKID

Stop Wasting Liquid AC

- Calibration Accuracy to 2/10 of 1%
- Back up AC Meter Feature - Reduces Plant Downtime
- AC No-Flow Indication
- Automatic AC Line Fill - Reduces Waste
- Mix and AC changes "on-the-fly"

BELT SCALES

Stop Scale Drift

- Internal Scale Calibration to meet or exceed state specifications
- Dual Scale Capabilities
- Scale Bypass Feature - Reduces Plant Downtime
- 2 Point Scale Calibration

ADDITIVES - RAP - SHINGLES - DUST/FINES

- Meter or weigh any ingredient
- Easily modified system to meet state specifications or changing conditions
- Unique timing features help minimize waste

COLD FEEDS

Verify Rate and Flow

- Material No-Flow Alarm
- Automatic Bin Vibrator Control
- Individual Feeder Stop/Start Times
- Reduce Waste
- Calibrate Feeder in Minutes
- Feeder Zero Speed Indication
- Control up to 15 feeders standard
- Multi Point Feeder Calibration - Improves Gradation Accuracy
- Pre-calibrate up to 4 materials per feeder

SILOS

Makes Switching Silos Easy

- Automatic Bintop Conveyor and Batcher Control
- Drag Slat & Bintop Zero Speed Alarm
- High Silo Alarm & Shutdown
- Change Mix Time Countdown
- Silo Inventory Output Pulse - Provides Silo Level Monitoring

OTHER FEATURES & BENEFITS:

- Automatic Stop/Start of all material handling
- Raw Materials Inventory • Plant Data Trending Screens
- Diagnostic Screens • Industrial PC Design
- Off-the-Shelf Components • Proven Software - 30 years in the making
- Standard or Custom I/O Enclosure
- Manual Backup Control • Motor Overload Alarm and Shutdown
- 24/7 Technical Support • Complete Parts Backup
